

King O' The Cats

Materials required

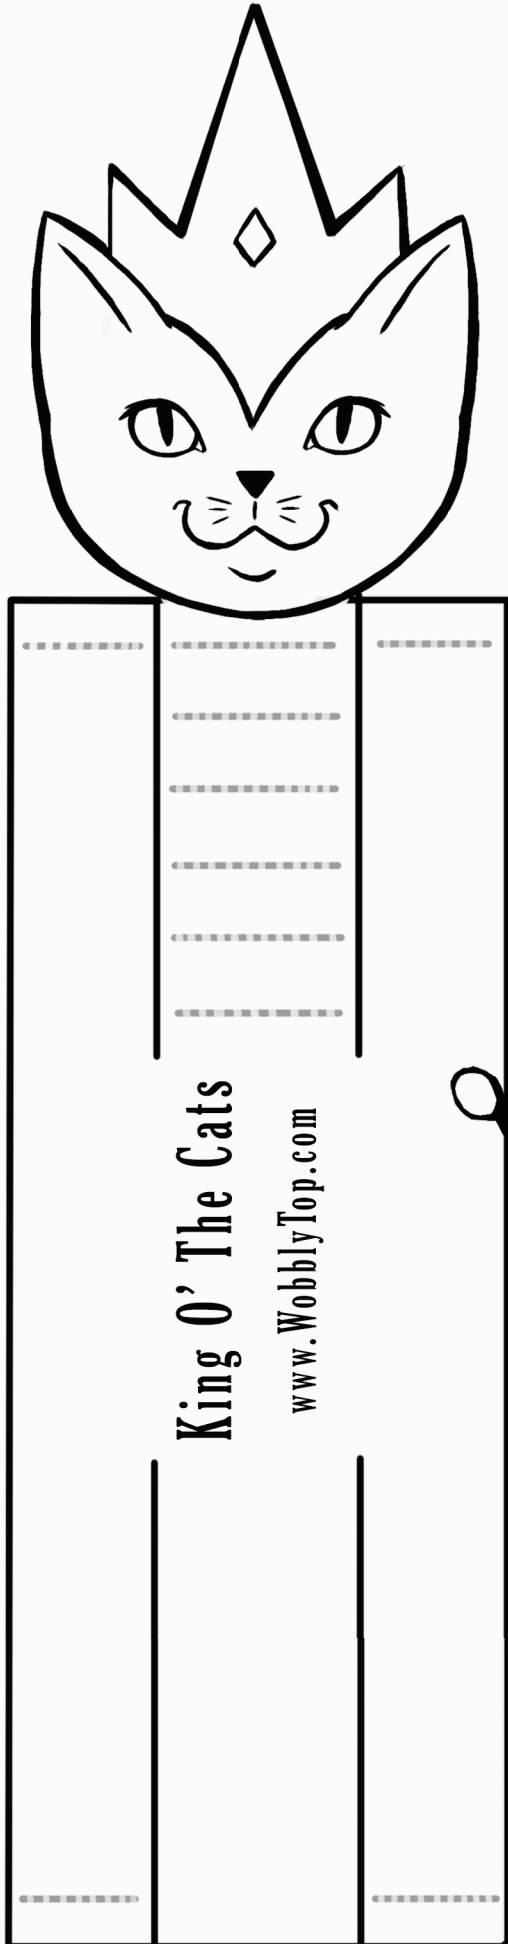

- Wobbly Top's *King O' The Cats* 3-D Pop-Up Cat Template
***While the template can be printed on regular copy paper, for best results, use thicker paper, such as cardstock, cover copy paper or construction paper. For the exact results seen in our sample, use Hammermill Color Copy Digital Cover paper.)
- Scissors
- Scotch Tape or Elmer's Glue
- A Sheet of Plain Paper

Instructions

- 1) Cut out the King Cat template along the solid black lines, making sure not to forget the lines that will separate the legs and tail from the body.
- 2) Color the cat as desired as well as the extra sheet of paper that will serve as the cat's base.
- 3) Fold along the grey dotted lines at the end of the feet to create the cat's paws, and fold along the dotted grey lines on the cat's neck back and forth, accordian-style.
- 4) Gently curl the tail.
- 5) Use the scotch tape or glue to attach the cat's paws to the extra sheet of paper, making making sure they are close enough together that the cat's body stands away from the base in an arc.
- 6) Voila! Your very own King O' The Cats!

***For an accompanying video instructions for this and other cat activities, visit Wobbly Top's YouTube channel.
